

The TempU temperature data logger is a low-cost recorder that alerts you if your shipment has fallen out of the refrigeration zone (2°-8°C). Absolutely no software and preset temperature alarm limits make it a simple solution for monitoring your refrigerated shipments.

Features:

- Captures data every 10 minutes
- +/- 0.5°C temperature accuracy
- No software
- Preset alarms for below 2°C and above 8°C
- Simple on/off operation with button press
- LED indicator of recorder status
- Automatic PDF reporting
- 2 year battery life
